

It is the responsibility of the person installing the electrical equipment to ensure that the installation meets the requirements of the IET wiring regulations and is therefore 'fit for purpose'. Factors such as correct selection of components, cable sizing, protective devices and Earth bonding are all critical and should be checked prior to full testing and power-up. Any other regulations applicable to the equipment being installed such as the Machinery Directive and current health and safety legislation must also be adhered to.

All connections (including factory made) must be checked for the correct tightness prior to commissioning of the electrical installation. All connections should be inspected periodically to ensure correct tightness.

## Polyester Back Panel

Part Number: ATLAS-PBP-\*

Larger back panels are supplied with with central fixing options of up to 3 holes for extra anchoring and improves the stiffness of the plate to prevent the base from sagging when attaching heavier components. The relevant additional screws for the central fixing only would be supplied.

Code	Suitable for use on Atlas Enclosure -	H x W x D mm
ATLAS-PBP-325	ATLAS-302514 & -P models	262 x 198 x 3
ATLAS-PBP-43	ATLAS-403020 & -P models	360 x 248 x 3
ATLAS-PBP-44	ATLAS-404020 & -P models	360 x 348 x 3
ATLAS-PBP-54	ATLAS-504020 & -P models	460 x 348 x 3
ATLAS-PBP-64	ATLAS-604023 & -P models	558 x 348 x 3
ATLAS-PBP-65	ATLAS-605023 & -P models	558 x 448 x 3
ATLAS-PBP-83	ATLAS-803023 & -P models	756 x 248 x 3
ATLAS-PBP-86	ATLAS-806030 & -P models	756 x 548 x 4
