

This document must be retained for future reference.

It is the responsibility of the person installing the electrical equipment to ensure that the installation meets the requirements of the IET wiring regulations and is therefore 'fit for purpose'. Factors such as correct selection of components, cable sizing, protective devices and Earth bonding are all critical and should be checked prior to full testing and power-up. Any other regulations applicable to the equipment being installed such as the Machinery Directive and current health and safety legislation must also be adhered to.

All connections (including factory made) must be checked for the correct tightness prior to commissioning of the electrical installation. All connections should also be inspected periodically to ensure correct tightness.

DO NOT USE POWER TOOLS ON THESE PRODUCTS

IPA163P13A
IP44 16A Plug to 13A Adaptor Socket

Features & Benefits

- Plug into 16A socket (IP44) to convert it to a 13A standard UK socket..
- Ideal for caravans, campsites, generators and distribution equipment.
- BS EN 50250 / BS 1363 Compliant

Specifications

Rated Current	16A
Rated Voltage	220-250V ~
No. of Poles	2P + E
Operating Temperature	-25°C ~ +40 °C
IP Rating	IP44 Plug (Without 13A plug inserted)
Main Material	Housing material: PA6 RoHS; Contact: nickel-plated brass RoHS
Colour	Blue / Grey
