

This document must be retained for future reference.

It is the responsibility of the person installing the electrical equipment to ensure that the installation meets the requirements of the IET wiring regulations and is therefore 'fit for purpose'. Factors such as correct selection of components, cable sizing, protective devices and Earth bonding are all critical and should be checked prior to full testing and power-up. Any other regulations applicable to the equipment being installed such as the Machinery Directive and current health and safety legislation must also be adhered to.

All connections (including factory made) must be checked for the correct tightness prior to commissioning of the electrical installation.
All connections should also be inspected periodically to ensure correct tightness.

DO NOT USE POWER TOOLS ON THESE PRODUCTS

EC2/EC4/EC6
Open Front Enclosures

- Available in either 2, 4 or 6 module
- IP20 Rating
- Knock-outs & cut-outs moulded in for quick & easy installation
- Suitable for * din rail mounted electrical distribution products
*(not including RCBOs)

Part Number	Description	Height	Width	Depth
EC2	2 Module	140mm	52mm	60mm
EC4	4 Module	140mm	90mm	60mm
EC6	6 Module	160mm	122mm	65mm
