

This document must be retained for future reference.

It is the responsibility of the person installing the electrical equipment to ensure that the installation meets the requirements of the IET wiring regulations and is therefore 'fit for purpose'. Factors such as correct selection of components, cable sizing, protective devices and Earth bonding are all critical and should be checked prior to full testing and power-up. Any other regulations applicable to the equipment being installed such as the Machinery Directive and current health and safety legislation must also be adhered to.

All connections (including factory made) must be checked for the correct tightness prior to commissioning of the electrical installation.
All connections should also be inspected periodically to ensure correct tightness.

DO NOT USE POWER TOOLS ON THESE PRODUCTS

PB6110D
Specifications and dimensions

- Plastic Junction Box with din rail fitted
- Suitable for power and control relays
- 20 / 25mm knock outs

Features	
External height	110mm
External depth	100mm
External width	110mm
Weight	0.315 Kg
Construction	ABS Plastic
Number of cable entries	8
Din rail	TS 35
Ingress protection	IP67
Ambient temperature operation	-10°C to +40°C
